

NEW LENOX BAND SOLOISTS WIN
HONORS IN DISTRICT CONTESTFirst OPS Ruling
Effects Garages and
Filling Stations

More than 3,000 filling stations in the Chicago area are affected by the provisions of Ceiling Price Regulation 13, issued in Washington March 22, Michael Howlett, Acting Regional Director of the Office of Price Stabilization, announced today.

The order fixes ceiling prices on products sold by filling stations, garages and other outlets, Mr. Howlett said. These products include gasoline, motor lubrication oils, greases, kerosene, gear oils, petroleum, naphthas and solvents, liquefied petroleum gas and all distillate burning, heating oils.

The regulation became effective Monday, March 26, 1951.

On that date, Mr. Howlett pointed out, ceiling prices are established for petroleum products at the highest price charged for each grade during the base period from December 19, 1950 through January 25, 1951.

Gasoline dealers are also required to post their ceiling price schedules in their places of business for all products covered by the order. Mr. Howlett said that this is the first OPS regulation to require posting of prices as part of compliance.

Many Attend Union
Church Services

The Good Friday union church services held in the Frankfort Methodist church drew a large attendance. Among the speakers who talked on the theme of the service, "Seven Last Words," were the Rev. Walter Bloesch, pastor of the Mokena Evangelical church, Rev. K. McCray, of the Manteno Methodist church, Rev. E. Gander, of the North Peotone Evangelical church and the Rev. Albert Sorenson, of the Joliet Gospel temple, who is also a chaplain at the prison.

The Rev. Erich Bizer, pastor of St. Peter's Evangelical and Reformed church of Frankfort assisted the Rev. D. B. Munson, pastor of the Green Garden and Frankfort Methodist churches. The musical part of the service featured solos by Mrs. Howard Osmus, Rev. David Munson, and Mrs. L. A. Pearson; a quartet from St. Peter's church and a quintet from the Green Garden church.

SAT. AND SUN.

The Bobbin-Swinford American Legion Post 1098 of Frankfort, has been planning and working for the past many weeks on their annual minstrel show.

This Saturday March 31 and Sunday, April 1, they will present their second annual show, "The Minstrel Parade" and it is said to be rather unusual. The place is the gym of the Frankfort public school and will start at 8 o'clock each evening.

Mrs. Edith Warning of New Lenox will preside at the organ.

The proceeds from the "Minstrel Parade" will go toward the village park fund.

HEARINGS HELD
THIS WEEK ON
HOG FARM CASE

Objections to a master's report in the case of the hog farm at 151st street and 90th avenue, and the Silver Lake Golf and Country club, at 147th street and 82d avenue, in Orland township, were registered Monday before Superior Judge Samuel B. Epstein.

Master William J. McGah appointed by Superior Judge John Luppe, ruled that because a previous master, Daniel Costigan, had ruled there was no cause to issue a temporary injunction, that therefore a permanent injunction against odors also could not be issued.

Attorney Vincent O'Brien for the farm said that Master McGah had construed Master Costigan's finding as a point of fact whereas this was an erroneous finding.

The club, owned by Bert Coghill, filed a \$150,000 damage suit against Andrew Rafacz and his wife Agnes who operate the farm which has 4,000 hogs. They said that the stench from the hogs and manure drove away the golfers and other club patrons. This suit was filed in 1948. Shortly thereafter Rafacz filed a counter suit for \$200,000 damages charging Coghill "illegally" obstructed the flow of the creek from the farm.

A government expert told the master that a concrete tank could be used to store the manure and if the manure were watered down and then transported in tanks and sprayed on the fields, no odor would result.

The hearings on the master's report will continue through the week on a technical level. Judge Epstein will then study the massive records in the case and decide whether to accept Master McGah's report or not. An early decision is not expected.

To Hold Open House
For Silver Wedding

Mr. and Mrs. William Bernard, of Mokena, will celebrate their 25th wedding anniversary with "open house" Friday evening, April 6 at 8 o'clock in the Vets' hall, on Wolf road. Everyone is welcome to attend.

The couple were married April 4, 1926, in the Cooper's Grove Lutheran church. The bride was the former Miss Emma Niefeldt, of Homewood, and Mr. Bernard was also from Homewood. They bought the farm they now operate and have lived there ever since their marriage.

They are the parents of three sons, Raymond, Norman and Walter and have one grandchild.

Hoesbach \$20,000
Estate in Probate

The estate of the late Fred Hoesbach, of Frankfort, will be shared by his widow, Mrs. Victoria Hoesbach, and two daughters, Mrs. Lorraine Reinberg of Monee, and Mrs. Verne Breidert, of Frankfort.

The \$20,000 estate was opened for probate in the court last week.

PETITIONS CIRCULATED ON
LOCAL HIGH SCHOOL QUESTIONJ. Scarth, Candidate
For School Board

John Scarth, is a candidate for reelection to the school board of the Mokena school, district 159. During the time he has served he proved to be a valuable member of the board because of his interest in the school and his ability, developed by years of experience as a successful business man.

At present an addition to the Mokena grade school is being built. Because of this and also because of the change in state laws governing school administration, many new problems will confront the school board and a man of good judgement and clear thinking will be of real assistance in making decisions which will involve the welfare of so many school children.

Mokena Man Weds
Joliet Girl Monday

At a double ring ceremony performed in the St. Margaret's chapel of Christ Episcopal church in Joliet, Monday morning at 10:30 o'clock, Miss Georgia Lee Bale became the bride of Joseph Andrew Howell of Mokena. Rev. Fr. Charles Bennis officiated before an altar decorated with Easter lilies and lilies of the valley.

Miss Bale is the daughter of Mr. and Mrs. Henry S. Bale of Joliet and Mr. Howell is the son of Mr. and Mrs. Ralph B. Howell of Mokena.

Only the immediate members of both families were present at the ceremony.

The bride wore a blue lace Ballerina length dress with a matching hat and a corsage of lilies of the valley. She was attended by Miss Jane Brethorst of Joliet.

Philip Howell served his brother as best man.

After the service a wedding breakfast was served to the bridal party and immediate members of the families in the home of the bride's parents. The dining table was lovely with decorations of lilies of the valley, the bride's favorite flower.

The young couple left the same day on a short motor wedding trip.

The new Mrs. Howell is a senior at the University of Ohio at Athens, Ohio, where she will be graduated in June with an art degree. Mr. Howell will graduate in June from DePaul university in Chicago with a degree in philosophy. He is preparing to enter the ministry which will be interrupted as he will enter the armed services two days after his graduation.

Easter Sunday Mr. and Mrs. Ralph Howell entertained at dinner Mr. and Mrs. Henry S. Bale and family.

Schedule For Oak
Forest Institutions
Given by C. F. Smith

With the spotlight on Cook County's Oak Forest institutions because of recent thefts there, Supt. Clayton F. Smith announced a full program of development this week.

Smith disclosed that in a trade with a nearby farmer, the Oak Forest farm has obtained two Belgian draft horses with which to work the 750 acres to be cultivated this spring.

By fall, 850 acres, including the farm, is to be fully landscaped, and by late spring, the nurses home is to be completely furnished and ready for occupancy.

Plans are underway, Smith said to increase the number of chickens on the farm so that 40 to 50 dozen eggs will be available daily for the institution inmates and for patients at the County hospital.

The number of hogs is to be increased from 900 to 1100, so that 24 can be butchered at the farm every week, to supply pork products to the county inmates and patients. Every morning the county hospital garbage is picked up, sterilized with live steam, and then fed to the hogs, which have been diminishing because of "inadequate breeding."

At the same time County Board Pres. William B. Erickson told that the Easter menus for the hospital and for Oak Forest was: Breakfast at the County hospital, half a grapefruit, colored easter eggs, shredded wheat with milk and sugar, bread with butter, coffee.

Dinner included either mutton or honey-baked ham, apples, cranberry, ice cream, vegetables and potatoes, cake or jello, and tea, coffee or milk. Easter supper consisted of beef broth, cheese, apricots, salad and a fruit compote.

'SADIE' WILL
BE IN ORLAND
FRIDAY NIGHT

They've done it again! Who? Why the senior class of the Orland Park community high school? What have they done?

Why, they picked another winner for their annual senior three-act play when they chose "Sadie."

Petitions were circulated last weekend calling for a referendum on the question of forming a community high school district in the townships of Frankfort, New Lenox and the north two-thirds of Manhattan township. The petition excluded the Cherry Hill district in New Lenox township as had been suggested by the survey committee which made their report the first of February. This is the district recommended by Dr. William C. Reavis, emeritus professor of education of the University of Chicago.

The signed petitions now go to Louis Bottino, superintendent of schools in Will county, who will send them to the state superintendent of public instruction at Springfield. There the petitions will be studied and a date set for holding the referendum on formation of the community high school district.

If the voters approve the district, the next step will be to hold elections to choose a board of education and to finance the construction of the school.

As was shown in a report of the survey committee published in this newspaper February 8, there are 293 students in this proposed district who are attending high schools now. Of this number 231 attend the Joliet township high school at a tuition rate of \$400 per pupil a year, which totals \$92,400. The amount is increased with the total tuition of the entire 293 pupils.

It seems to be the consensus of opinion of a great many voters that it would be a greater advantage to the pupils in this area if there was a high school in this territory, centrally located.

We do recognize the splendid township high school at Joliet and that it has been an important factor in the lives of the many young people from this rural area who have received their high school education there. While attending there the non-high school district has paid their tuition. But now the law has declared that by 1953 the non-high school districts must be abolished.

There is a bill now in the legislature to amend this law, to extend the time of abolishing the non high school districts for a few more years. As we understand it now, this amendment has been sought because of certain crowded districts in the Rockford area that are having difficulty in being consolidated with high school districts. We will say more about this next week.

The Orland Park High school board recently received a petition signed by 220 citizens who oppose remodeling or building additions to the Orland Park public school building at this time. These citizens asked the Board to postpone any such local action until it is definitely known whether or not it will be possible at a later time to join the proposed new high school district in Frankfort, New Lenox and Manhattan townships.

The Orland board has already expressed itself as favoring the suggestion in this petition, and on Monday night, March 19, it met jointly with the school survey committee representing Frankfort, New Lenox, and Manhattan townships. It was the consensus of both groups that the merger of the Orland High school district with the proposed new high school district in Will county would be educationally advantageous to both areas and financially sound.—Ralph L. Town, Secretary Orland High School Board District No. 221.

BOARD ASKED
TO DELAY ACT'N
ON BLDG. PROG.

Many critics agree that "Captain Sam Grant" by Lloyd Lewis is one of the most important books of 1950. After years of research Mr. Lewis has made the young Ulysses S. Grant into an appealing human.

The book is best described by the author's own words from a letter to his publishers "The job is—to make the reader feel what I feel, namely, that biography is not instruction or teaching, but is just a story that happens to be true."

"Captain Sam Grant" is one of the books the Mokena Book club has recently purchased. It can be borrowed from the Mokena Library.

which is a rollicking, ultra-modern comedy of an ordinary young girl's encounter with a gang of foreign spies. The play will be produced tomorrow evening, Friday, March 30 in the Orland school auditorium for only one performance. Curtain rises promptly at 8 p. m.

Tickets may be procured from members of the senior class or at the door. Get your tickets and come to the play early so that you'll be assured good seats. And be sure to buy enough of them. Your family will stop speaking to you, and your best friends will pass you by if you fail to take them to see "Sadie."

It's that kind of a play!

**Slim And His
"Ali Species"**

Slim Baker, who's always doing something crazy, had a lot of people smiling last week because his entry won a ribbon in the Women's Club Annual Pet Show.

Seems as though Slim saw a strange-colored alley cat with no tail over at Central City and brought it home. He washed, combed, and brushed it and put a collar on it with a card reading "Ali Species." Then he enters it in the show.

Hanged if the ladies didn't think it was some rare kind of cat and gave it a special award! When

one of them asked Slim where she could get one like it, he said, "It's all yours, M'am—I can get an 'Ali Cat' anytime I want!"

From where I sit, some of us are pretty easily "taken in" just because someone else says it's so. Whether it's awarding prizes or passing judgment on a person's pet—let's take a good look from stem to stern, and learn what it's all about before making up our minds.

**USERS AMAZED BY
SPECTACULAR RESULTS**

Read this exact quotation from a letter from Mr. Lyman McKee of the McKee Bros. Farm at Madison, Wis.: "We started feeding about 50 pigs on the MYZON feeding program about September 1st. One of the first things I noticed was that their appetites and general activity improved. This was followed by a marked increase in weight."

Here's what another actual user says in praise of MYZON COMPOUND. Mr. Ivan Eschenbach of Baraboo, Wisconsin writes: "A few of my pigs which were a great deal behind the others when I began using MYZON, have shown much improvement. I can certainly say I have been very well pleased with the results I have had from using MYZON."

MYZON COMPOUND promises faster growth, better health, increased egg hatchability! Pigs show as much as 30% greater gains in four months!

IT'S EASY TO USE MYZON JUST ADD TO REGULAR FEED Just mix MYZON COMPOUND with your own feed, adding salt and low-cost vegetable proteins. See for yourself how your animals brighten up, eat more, and gain in weight. MYZON saves you days of labor—saves you expensive feed because animals get to market size faster!

MYZON compound contains not only liberal amounts of the wonder drug Terramycin but all other known vitamins and minerals ordinarily supplied by animal or fish products.

Visible Signs Of Tuberculosis

Tuberculosis germs can work unnoticed for months, even years, before there is any warning with obvious symptoms—before the person begins to feel or look ill.

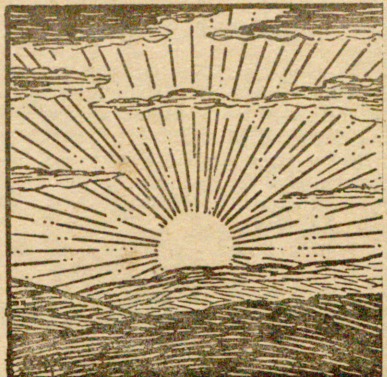

There are visible and recognizable signs of tuberculosis, but not until the later stages of the disease. The earlier the case is discovered, the better the chance and more rapid the recovery, and the less the danger of spread.

Signs of tuberculosis include unexplainable fatigue, noticeable loss of weight, a cough that hangs on, and sometimes the spitting of blood. Unfortunately, however, these symptoms usually appear when tuberculosis is in an advanced stage and more difficult to treat.

Certainly, anyone who suffers one or more of the symptoms which might mean tuberculosis should see his doctor without delay. By means of x-ray and regular phys-

"Just Been Thinkin' "

Too many of us believe that achievement is the amassing of a large fortune, becoming eminently famous, or producing some lasting masterpiece of art. But the higher and truer meaning of attainment in any life rises from humanitarian effort. It is a wonderful thing for you, when once you are old, to look back

If years were short
Yet you have done
All that you could,
Then you have won...
If you but lived
To aid and bless
And you were loved,
You knew success...
If you put peace
Where there was strife,
Then yours has been
The fruitful life...
And if you found
The pathways rough
And still you tried —
You did enough!

DUO-WAY
DISPOSAL UNIT

Until you've actually enjoyed a DUO-WAY in your own home, you just can't imagine how many steps and how much time it saves you—how much it relieves you from odious garbage disposing tasks—how much cleaner and more sanitary, odor-free and muss-free it keeps your kitchen.

You couldn't ask for an easier, more economical way to dispose of household waste, for push-button controlled and gas-operated DUO-WAY burns every type of garbage and refuse excepting metal and glass. Moreover, it burns it without the disagreeable odors of ordinary incineration... thanks to DUO-WAY'S famous and exclusive **DRY FIRST—THEN BURN** DOUBLE ACTION.

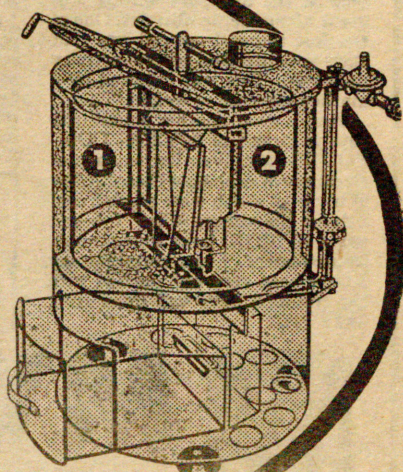

Safe and sanitary, a DUO-WAY gas-operated disposal unit can solve your refuse problem simply and inexpensively for years to come. Come in and see the 1951 model today. You owe it to yourself to see first-hand what a wonderful home help it can be.

Convenient terms on your monthly Service Bill

DRY FIRST—THEN BURN

DUO-WAY'S Exclusive Double Action Principle

All material fed into your DUO-WAY is first thoroughly dried in a special chamber (1) over a low, economical gas flame before it is burned in the combustion chamber (2)—thus insuring against any smelly, smoky odors. Emptying the large ash drawer about once a month is practically the only servicing required.

God Invented Us

Lesson for April 1, 1951

"GOD INVENTED it," says C. S. Lewis about the universe. It is a 20th-century way of saying what the Bible says about God and the world. There have been whole religions based on the idea that God is good and spirit is good, but anything which is not God or not spirit is bad. If this were true, then our bodies would be bad, and all the physical world about us would be bad; our souls would be prisoners, so to speak, in a vast fortress of evil.

This is not the truth the Bible tells. The story of Creation in Genesis tells us that when God had finished with making the world he saw that it was good, very good. He invented the world, he invented spirit and matter both, he invented us body and soul. Whatever evil is now in the world and in man did not come from God, it is not a mistake of God's. The world, as God invented it and intends it, is good.

The World Did not Happen

THE Christian church has changed some of its ideas about creation, but it has never ceased to believe in creation. Very few churches, if any, now affirm that the world was created in precisely six 24-hour days, and still fewer would be willing to name the dates on which creation took place.

Nevertheless the Christian church has not given up, and will not give up, her belief that God created all things. The doctrine of creation means, first of all, that the one God willed the universe and what is in it.

The universe did not happen, it did not make itself. It was not made by different gods working against one another. Zoroastrianism, for instance, teaches that the world was made by two gods, one of light and one of darkness. Whatever the god of light created, the god of darkness would make something exactly opposite. No, Jews and Christians alike say, there is only one Creator, the infinitely wise and good God.

Nature's Laws

NON-RELIGIOUS philosophers have sometimes said that the world explains itself. But Christian philosophers, not to mention Jewish ones as well, have seen that the world does not explain itself. There is too much evidence of purpose and design running through the patterns of the universe. Definite laws can be discovered and to some degree understood.

The same laws which govern matter on this planet, and indeed the very same elements, the "building-blocks of the universe," are to be discovered in the remotest stars. If the universe were an accident it would not be tied together as it is.

It would not be a universe of law but one in which nothing could be counted on, nothing expected. It would be no universe but a multi-verse, a mad world, indeed no world at all but an infinite confusion.

Why Are We Here?

BUT CREATION means something more personal. It means that we ourselves have been called into existence by the Almighty,—not by a god of mere sheer power, but by the one God of infinite and all-powerful Love. Man is not here on this planet by some trick of blind fate, mankind is not a mere fleck of foam tossed up by the restless ocean of the Infinite, soon to be washed away in the ebbing tides. Man—that means also, we ourselves—are God's invention.

We are not now as he intended us, to be sure; sin has changed the picture sadly, as we shall be thinking next week.

Why are we here? We are here because God put us here. This means that life has a meaning; but also that we cannot find that meaning without knowing the will of God. His will is for our welfare; only the Creator knows what is best for his creatures. God intended this world to be used by us, not abused.

When any man or group of men get the notion that this world belongs to them alone; or when one generation misuses the resources of the lands and the waters, leaving to their descendants a wasted earth, then God's will in creation is being defied. But when we take his will as life's guide, we are on the way to fulfilling his purpose in Creation.

NEW POWER AND ECONOMY WITH MM MODEL U AND LP GAS

LP gas equipment factory installed on Minneapolis-Moline UTU and UTS tractors offers owners the many advantages of this clean burning high-octane fuel. Complete and slow burning of LP gas make possible new smoothness and uniform bearing pressures. This gives you more power on tough plowing jobs and exceptional smoothness for careful cultivating jobs—gives you the hidden savings resulting from greatly reduced maintenance savings and oil economy.

Apply these added fuel benefits to the MM Universal or Standard U tractors that are power and economy leaders in the 3-4 plow power class and you have truly outstanding performance. See us for full particulars on LP gas equipment factory installed to save you time and money on field changeover.
